## **General**

### **The new BPA Energy Efficiency Action Plan is out! -**

BPA has finalized and released the 2016-2021 Energy Efficiency Action Plan. The Action Plan forecasts how public power will achieve a share of the Council's Seventh Plan EE savings goals through a variety of programs, market transformation and Momentum Savings. The Action Plan also identifies the budget needs required through 2019. The Action Plan includes an overview of sector program strategies, evaluation, emerging technology and an introduction into BPA demand response. [Click here to read the document.](#)

### **The COTR Corner -**

Do you have a new construction lighting project for a small business? Were you wondering if the Small Business Lighting promotion might apply to new construction projects? The Small Business Lighting Promotion is specifically designed for qualifying retrofit projects and offers a calculated incentive of up to \$0.23 per kWh saved. New construction projects should use

the standard lighting calculator which can be found [here](#).
